

EMERGENCY AIRCRAFT BATTERY

TSO AUTHORIZED

RG-128 Series Specifications

Voltage	24 Volts
Rated Capacity C ₁	3.8 AH
Maximum Weight	11.2 LB / 5.1 KG

Features

RG-128-1	7.5 AH Circuit Breaker Output Ni Cad Replacement
RG-128-2	15 AH Circuit Breaker Output Ni Cad Replacement
RG-128-3	Dual Output Pin A: 7.5 AH Circuit Breaker Output Pin E: 10 AH Circuit Breaker Output Ni Cad Replacement

Not Rated for Engine Starting

Connector clocking options are available on our website
 Specifications subject to change without notice.

Standby and Emergency Power

Concorde's valve regulated sealed recombinant gas (RG®) Emergency and Standby batteries are constructed with advanced lead acid and absorbed glass mat (AGM) technology. This proven technology provides hassle free dependable and reliable power that protects and extends the life of your avionics.

Designed to float directly on the DC buss which provides high inrush current resulting in fast recovery time and extended battery life. Concorde batteries are self regulating and will accept only the current required to maintain charge. There is no need for a dedicated charger.

- Circuit Breaker – built with circuit breaker to limit the output current
- Factory Tested - Assures airworthiness & installation readiness
- Maintenance Free – No addition of electrolyte or water ever required
- Proven Technology – Dependable, durable and safe
- Transport – Ships HAZMAT exempt
- TSO Approved - FAA TSO-C173 approved
- Worldwide – Available through a professional network of worldwide distributors

Concorde designs and manufactures over 90 models of Original Equipment and direct replacement batteries for fixed wing and rotary aircraft and has a reputation for designing application specific solutions. Concorde batteries are installed as Original Equipment by the majority of aircraft manufacturers and adopted by military aircraft operators worldwide.

Manufacturing certified aircraft batteries for over 40 years: Military, TSO, FAA-PMA, OEM
